## Hydraulic grab arm: Gripping!

Discover the powerful gripper arm as a safe and efficient extension for pallet forks!

### Sophisticated, tried-and-tested design

- > **to fix loads** such as thick branches, thin logs or round timber logs **on the pallet fork**
- > attachment to Schneider pallet forks and other pallet forks with FEM2A attachment
- > **powerful hydraulic cylinder** on top in protected position **with high closing force**
- > **Opening width 1,340 mm**  
(load center of gravity 500 mm)

### Easy to handle

- > **uncomplicated installation** thanks to low weight of only 75 kg and attachment via the the FEM2A mount on the pallet fork
- > incl. hydraulic hoses and BG3 connector
- > greasable pivot points
- > **high-quality powder coating**
